

DUETTO *special edition*

FAMILIAR BUT DIFFERENT

Hanna Korvela's best-known product, the Duetto rug that has won numerous international awards, has been manufactured by hand in Finland for 20 years. This spring, the classic is different. Five new, powerful tones have been added alongside the elegant standard colour range. Traditionally, the power of the Duetto rugs has been in their ability to blend into modern decor and provide space for details. The Special edition does not merely blend in. It takes its place and receives the attention it deserves. It is, in itself, the detail whose quality endures.

DONT WORRY, IT'S SPECIAL

The new Duetto rugs not only make life more beautiful, they also make it easier. The cotton tricot and paper yarn now have a very long-lasting treatment that makes the rugs dirt-resistant. Even coffee and wine stains can be removed by a light sweep. The rugs only need to be used; maintenance could not be more effortless. The new treatment is ecological and free from harmful substances (the matter is certified according to Oeko-Tex 100 standard), and it is not felt on the skin. Clean, natural materials, on the other hand, feel wonderful on the skin.
